

Paul & Mari Ann Miller

Dear Future Homeowner,

We highly recommend Del Vallo Construction Inc. to build your new house. We had such a wonderful and memorable experience building our dream house with them. They are so devoted, compassionate, sensible, smart, personable, and so very qualified. We checked out alot of builders before we chose Del Vallo. We found their quality and workmanship were the best around.

Frank redesigned quite a few rooms for us. He is an excellent architect and so very helpful in getting it exactly how we wanted, and even better with his expertise, that he keeps giving all along.

Frank, Anthony, and Frank Sr. are very special to us. They always made us feel so welcome, even when we bothered them with the little things. They are eager to please and always available if you need to talk to them, as they work at the job site everyday. We built a house before and we never saw the builder. We feel so confident with them and trust all they say and do.

We did not have any problems. Only very happy memories and a friendship with three great men who we think build the best houses anywhere. We love our house, thanks to Frank, Anthony, and Frank Sr.

Sincerely,

Mari Ann Miller
Paul C. Miller
